Farmers' Troubles in California.

The San Francisco Alta of a recent date says: " We do not see any serious danger that the people of California will become idlers, as many of the Southern Italians and Southern Spaniards are; but a considerable proportion of the people coming from the East of late seem to think that they eight to be able to live without hard work, to get two or three times as much for their labor as can be got in the East. The grain farmers, as a class, cannot afford to pay the current prices of farm labor, and the proportion of farmers who have saved \$5,000 or \$10,000 out of grain crops, after paying all the expenses and supporting their families, within the last ten years, is thrice as large in Iowa and Wisconsin as in Californin, and for such sums as \$15,000 or \$20,000 is ten times as large. In fact it is one of the hip Chandlers and General Commission Merchants. greatest rarities to find a California farmer who has made anything out of grain after a succession of crops. A few bave been fortunate enough to do well in one favorable season, and have invested their money profitably in land, risking little or nothing afterward. Nearly all those farmers who have undertaken to farm extensively for year after year with hired labor have lost money. The hired men made all the profit there was in laborer wants to do here is to cultivatein grain the crops, and about the last thing that a farm extensively with hired men. The land owners are impoverishing the soil in the hope of large crops, with two chances out of three against them. If the seasons here were regular, and if the crops did not usually vary from the average more than they do in Illinois, the wages of farm aborers would soon be brought to a figure that would leave a fair magin of profit, but the hope

DR. J. COLLIS BROWNE'S CHLORODYNE

A. L. BANCROFT & CO.,

IS THE ORIGINAL AND ONLY GENUINE. THE PUBLIC ARE CAUTIONED AGAINST I the unfounded statements frequently made, "that the composition of Chronodyne is known to Chem-ists and the Medical profession." The fact is, Chlo-rodyne was discovered and invented by Dr. J. COL-LIS BROWNE (ex Army Medical Staff), and so named by him, and it has baffed all attempts at anal-ysis by the first Chemists of the day. The method and secret of the preparation have never been published. It is obvious, therefore, that anything sold under the names save Dr. J. COLLIS BROWNE'S CHLORODYNE, is a spurious imitation.

CAUTION.—Vice-Chanceller Sir W. P. Wood stated that Dr. Collis Browne was undoubtedly the inventor

of Chlorodyne.
